## WAR TROUBLE IN EL PASO

**BULLETIN**  
SAN ANTONIO, Tex., April 28.—A Prensa, a Mexican newspaper, published here tomorrow a dispatch from Mexico City, saying a number of men have been fired in the capital and describing the conditions as serious. No other details are given. The dispatch is evidence of having been forced.

**BULLETIN**  
EL PASO, Texas, April 28.—Following troops in Chihuahua have been driven from the capital by loyal forces led by Elias de la O, a civilian who is secretary to provisional governor Andres Ortiz, now a candidate for constitutional governor.

**BULLETIN**  
GUAREZ, Mexico, April 28.—Operations at Salina Cruz, commanded by General Alejo Gonsalez, have been revolted and taken session on the port, one of the most important on the isthmus according to a report received tonight.

**BULLETIN**  
EL PASO, Texas, April 28.—Prensa officials in El Paso and Guarez tonight were prepared to resist a threatened attack against a threatened attack to swing the Juarez garrison into line with the Chihuahua revolution which was launched the state capital yesterday.

**BULLETIN**  
GUAREZ, Mexico, April 28.—Chihuahua City was quiet at noon today and all Americans were safe according to a message received this afternoon from American Consul E. A. Dow, from J. B. Stewart, American consul in Chihuahua City.

**BULLETIN**  
WASHINGTON, April 28.—Mexican advisers here today both American and rebel channels continued to note a rapid spread of the revolutionary movement against the Carranza government, particularly in the close vicinity of Mexico City. Government officials here, however, did not say anything immediately in the situation. The latest available information it was indicated that the rival forces under arms were nearly equal in number. As indicative of the reported defections in the rebel ranks, rebel agents here were making possible the occupation of Cuautla, and were from the organization of picked troops used as a guard for the rebel capital.

They also viewed the break in a garrison in Chihuahua as reducing the menace to the revolutionary forces in Sonora from that quarter.

Until the rebels operating in most every part of the country are co-ordinated, Mexico City is no serious danger, military men here believe, except by a coup d'etat, or from a raid that once turned into a more important movement.

The chief immediate difficulty of federal leaders, military officers here said, was the possibility of Carranza lines of communication, which might force them to adopt a defensive attitude in place of offensive measures against the rebels. News from the Southern part of Mexico affirmed reports that Carranza, Puebla and Cuautla were rebel hands and Zapatistas had been in some strength in the Southern part of the state of Mexico, adjoining the federal district.

The official statement published in Mexico City yesterday that General Dieguez was in Guadalajara with 8,000 federal troops, was regarded as significant, since the announcement was made three weeks ago that he had been ordered from Mexico City for the coast to attack the rebels.

When the rebels were ordered to get farther than Guadalajara was said to have been the rebels an opportunity to move on Mazatlan and organize a line of communication that extended to the American border.

**U. S. Troops Prepare**  
El Paso, Texas, April 28.—Military troops in El Paso tonight were ordered to be prepared for action in event a threatened rising in Juarez endangers this city.

Military police in the city have issued rifles and ammunition and the city police have made arrangements to patrol a dead zone in the lower part of the city beyond which civilians will not be permitted to go in the direction of the Rio Grande.

General Francisco Gonzalez, commander of the Juarez garrison, when Villa attacked the city June, 1919, and until recently provisional governor of Tamaulipas, arrived in El Paso this afternoon.

## STRIKE LEADERS WILL BE INDICTED UNDER THE LEVER FOOD ACT

Federal Grand Juries Asked  
by Ames to Proceed  
Against Violators

NEW YORK, April 28.—Indictments charging violation of the Lever act will be sought by the government against leaders of the strike in the New York district according to announcement today by Assistant United States Attorney C. B. Ames at the close of an investigation he has been conducting into the strikes here.

Federal grand juries in New York and Newark will be asked to proceed against the strike leaders, Mr. Ames said. He asserted that department of justice agents have fully established the identity of these leaders.

The New Jersey federal grand jury is in session and ready to take immediate action it was announced. None of the railroad strikers are named by the government investigators it was stated. Mr. Ames said he was convinced that neither the brotherhoods of railroad employees nor the American Federation of Labor had been involved in the strike.

"The outland railroad strike situation seems to be improving steadily," Mr. Ames said, "and I do not think it requires attention further than possible punishment for the violation of law."

**Chicago District**  
Chicago, April 28.—The unauthorized walkout of railroad employees in the Chicago terminal district entered its fifth week today with no apparent indications of a great break in the insurgent ranks, but the railroads reported a continued improvement in traffic conditions with an addition of 125 men to the switching forces.

"Approximately 2,339 switchmen were on duty in Chicago today," a statement said. "Of this number, 173 were returned strikers, 406 new men and 760 men brought into Chicago from other points."

Coal receipts today were 1,185 cars and livestock receipts 559 cars while 184 cars of livestock and 270 cars of meat were sent east.

A. F. Whitney, vice-president of the brotherhood of railway trainmen said that with more men returning to work each day and new workers arriving from other cities the end of the insurgent union was in sight.

**LOWDEN DISCUSSES  
LEAGUE OF NATIONS**  
Terre Haute, Ind., April 28.—The league of nations without reservations would have created a superstate which would have empowered and overcome the American Republic Governor Frank O. Lowden of Illinois, candidate for the Republican nomination for president said tonight in an address. The reservations insisted upon by the senate were righteous and just," he said. "We are in favor of peace."

**BODIES OF 353 YANKS  
BROUGHT FROM FRANCE**

New York, April 28.—The bodies of 353 American soldiers, of whom all but 80 died in France, arrived here today on the transport Mercury, from Antwerp and Southampton. Their arrival marked the first return of soldier dead from France. The bodies were carried to the state of New Jersey were made tonight by William P. Verdon, Republican leader in Hoboken and one of the most enthusiastic Johnson supporters in the state.

He expressed the opinion that Johnson would win at least 11 of the 28 delegates.

**WRESTLING MATCH**  
Dubuque, Iowa, April 28.—Henry Engel middleweight wrestling champion of Iowa, tonight defeated Ernest Kleppner of St. Louis two falls out of three. Engel won the first fall with a toe hold in 40:10; Kleppner took the second with a hammerlock in 5:10 and Engel the third in 24:08 with a toe-hold. Engel will meet Johnny Meyers of Chicago early in May for the world's title.

**WILSON TAKES LONG RIDE**  
Washington, April 28.—President Wilson took advantage of the bright sunshine today for a long automobile ride thru Rock Creek park. He rode in an open car accompanied by Mrs. Wilson and Dr. Grayson.

**NAMED MINISTER**  
Washington, April 28.—Peter Augustus Key, of Rhode Island, now counselor of the embassy at Rome, was nominated today by President Wilson to be minister to Salvador.

## WOOD CARRIES NEW JERSEY BY SMALL MAJORITY

Wood Will Have Eleven  
and Johnson Ten  
Delegates

## OHIO RETURNS NEARLY ALL IN

NEWARK, N. J., April 28.—Revised returns in all but 84 districts in New Jersey tabulated at midnight gave Major General Leonard Wood a majority of 612 votes over Senator Hiram W. Johnson of California in the preferential presidential primary held yesterday.

The vote was:  
Johnson . . . . . 50,790  
Wood . . . . . 51,402

Seventy-four of the 84 missing districts are in the counties which have given Wood a majority in the incomplete returns. Virtually all of them are in rural and outlying sections of the state and their vote will not be available before tomorrow. Figures at hand indicate that Wood has carried 14 counties and Johnson 7.

The Republican "big four" will consist of United States Senator Walter E. Edge and Joseph S. Frelinghuysen pledged to the choice of the voters as expressed at the primary; former Governor Edward C. Stokes and former acting Governor William N. Runyon both pledged to Wood.

District conventions indicate the election of 11 Wood, 10 Johnson and 3 unpledged delegates, with several precincts missing in six districts.

**Johnson Comments.**  
Richmond, Ind., April 28.—"I make no charges, but I have a very lively recollection of the fraudulent Minnesota primary and I have wired my friends in New Jersey for detailed information," said United States Senator Hiram W. Johnson, here late tonight, in commenting on the New Jersey primaries. He had just received a telegram from William P. Verdon, telling of charges that he had been robbed in three counties.

Previously he had made the following statement:  
"I am delighted with the results in New Jersey. I entered the state without any previous organization and had been assured that Wood was expected to beat all other candidates by a ratio of five to one. But the results show us almost equal. I consider my results in New Jersey the most remarkable thing in my whole campaign."

**Refuses to Concede.**  
New York, April 28.—A. C. Joy, assistant eastern campaign manager for Senator Hiram W. Johnson of California announced tonight he was not willing to concede to Major General Leonard Wood, victory in the New Jersey preferential presidential primary. He added that even if Wood carried the state, the margin undoubtedly would be so small as to amount virtually to a victory for Johnson.

"We entered New Jersey with no funds and virtually no organization to battle one of the strongest political organizations in the country, the New Jersey Republican state organization," he said. "Unless Wood wins by a very large majority, it will be a serious blow to his campaign. We have won eight district delegates and possibly one delegate at large in the state."

**Claims Johnson Robbed.**  
Newark, N. J., April 28.—Charges that Senator Johnson had been "robbed" of the Republican preference for president in at least three counties of New Jersey were made tonight by William P. Verdon, Republican leader in Hoboken and one of the most enthusiastic Johnson supporters in the state.

He expressed the opinion that Johnson would win at least 11 of the 28 delegates.

**Ohio Returns.**  
Columbus, Ohio, April 28.—With only 190 out of a total of 5,882 precincts in the state missing, returns tonight from yesterday's preferential primary election in Ohio gave Senator Warren G. Harding a lead of 13,333 over Major General Leonard Wood. The vote stood:

Harding . . . . . 121,485  
Wood . . . . . 107,652

Three Harding candidates and one Wood candidate were in the lead for the race for delegates at large to the Republican national convention but late returns today indicated a possibility that four Harding candidates might be elected.

Tabulated returns from 5,211 out of 5,882 precincts in Ohio gave:

Daugherty (H) . . . . . 93,821  
Boyd (W) . . . . . 96,415  
Turner (W) . . . . . 94,415  
Galvin (H) . . . . . 105,793  
Herrick (H) . . . . . 116,529  
Willis (H) . . . . . 106,415

Harry M. Daugherty, Columbus attorney and Harding's campaign manager was the "Harding" candidate who on the face of the returns appeared to be defeated by William Boyd, Cleveland attorney and Wood candidate.

## Condensed Telegraphic News

(By The Associated Press)  
NEW YORK, April 28.—Representatives of the anthracite mine workers have notified the operators that their counter-offer of a wage increase approximating 15 per cent is rejected and declined to accept their proposal for arbitration according to a statement issued here tonight by the subcommittee appointed to negotiate a new wage agreement for the hard coal workers.

BELFAST, April 28.—Two hundred Sinn Feiners have been on a hunger strike in the Belfast jail since last Monday when the governor of the prison refused their demand for unconditional release. Four have been removed to the prison hospital. The military is guarding the prison which is surrounded by electrified barbed wire.

DUBLIN, April 28.—Tom T. Kelly, lord mayor-elect of Dublin and Sinn Feinn members of parliament who was released from the Wormwood Scrubbs prison in England because of ill health, returned to Dublin today. It is said he will not be able to take office because of the effects of his incarceration.

ST. LOUIS, April 28.—Congressional intervention to settle the strike in the St. Louis district was urged in telegrams sent by the "insurgents" here by Vice-President Marshall, president of the senate and Speaker Gillett of the house.

QUINCY, Ill., April 28.—Candy manufacturers forming the midwest club of the National Confectioners' association in a meeting here today decided to keep candy prices at their present level despite the shortage and high price of sugar and other materials. The sugar situation was the principal topic of discussion and most of the manufacturers from a number of mid-west cities reported having a sixty-day supply or more on hand.

**GOVERNMENT SEEKS TO  
REOPEN SUIT AGAINST  
STEEL CORPORATION**  
Motion for Hearing Based on  
Court's Order to Dissolve  
Reading Company

WASHINGTON, April 28.—The supreme court was asked today by the government to reopen the anti-trust suit against the United States Steel corporation dismissed March 1, by a four to three decision.

The government's argument on the motion for a re-hearing was based largely on the four to three decision rendered by the court last Monday, ordering the dissolution of the Reading company and its subsidiaries the first of the Anthracite cases to be decided.

Counsel for the government declared that the steel case would seem to fall within the Reading case and that "the holding of the steel corporations to be a legal corporation under the anti-trust act would appear to conflict with the conclusions expressed in that and other decisions."

Chief Justice White and Associate Justices McKenna, Holmes and Vandeverter rendered the majority opinion in the steel case while Associate Justices Day, Pitney and Clarke joined in a minority opinion.

Chief Justice White and Associate Justices Holmes and Vandeverter dissented from the majority in the Reading case. Joining associate Justice Clark in the majority opinion were Justices Pitney, Day and McKenna.

**CONFESSES TO MURDER  
OF MICHIGAN GIRL**

PONTIAC, Mich., April 28.—Anson Best, of Flint, Mich., factory employe and former soldier, who this morning confessed, according to Prosecutor Glenn C. Gillespie that he strangled Miss Vera Schneider, a telephone operator, last Sunday morning, was further questioned by the authorities tonight to clear up what appeared to be discrepancies in the statement attributed to him by the prosecutor.

Best was quoted as saying he killed the girl whom he had met only two hours earlier because she asked him to; that she wanted to die because she was tired of life and only in the way of others.

The statement, the prosecutor said gave no other explanation of the crime.

Alfred Webb and another man taken into custody in connection with the case were released today.

**COOKS AND WAITERS  
STRIKE MAY 1ST**

Chicago, April 28.—Several thousand members of Chicago hotels and the Waiters, Waitresses and Cooks' Unions tonight voted to strike May 1st if demands for wage advances were not granted. The waitresses, who now receive \$12 a week and meals, are demanding an increase of \$6 an 8 hour day and a six day week. The waiters ask \$18 a week with meals, or \$25 without, and an 8 hour day, while the cooks seek an increase from \$35 a week to a minimum of \$50. Approximately 7,500 members of the unions are affected, officers said.

## PROPOSE CHANGE OF COUNTY FORM OF GOVERNMENT

Radical Reorganization  
Would be Permitted Under Plan

## WILL SUBMIT ARTICLE TODAY

SPRINGFIELD, Ill., April 28.—Radical reorganization of the form of county governments now in vogue in Illinois would be permitted by an article which is in tentative form for submission to the county and township organization committee of the Illinois constitutional convention. The article will be submitted to the committee tomorrow.

The article would permit a county treasurer to succeed himself in office. A provision would also be inserted granting the legislature power to abolish the present form of county and township government and provide in its place some method of county government which would be approved of by the electors of the county.

The suggestion made in committee hearings that sheriffs also be allowed to succeed themselves is not contained in the tentative draft of the proposal.

The continuance of the office of county superintendent of schools would be left to the discretion of the legislature. The proposal also dealt with the subject of road building and makes provision that the county shall be unit in highway construction.

The convention meeting today in committee of the whole for consideration of the public works committee's reports on canals and waterways abandoned consideration of the committee's report when it was found that it contained no provision for preventing appropriation by the general assembly for the construction of waterways and railroads as does the present constitution.

Several delegates declared that this check upon the right of the legislature to appropriate state funds for building common carriers should be retained in the new constitution.

The committee report will be returned later with several amendments adopted during the long discussion of the proposal today. The convention tomorrow may take up the report of the committee on education which has its final report ready for consideration. A minority is expected from Delegate Henry M. Dunlap of Savoy. Delegate Dunlap opposes the use of public funds for the maintenance of sectarian institutions and his report will embody this idea.

The committee on the distinction between constitutional and legislative subjects, to which several proposals of doubtful subject matter have been referred, this afternoon decided that a proposal which declares that that conspiracy to quit state offices is unconstitutional is a proper subject for the convention to consider.

Other proposals which were declared to be of a constitutional nature included those dealing with civil service, giving cities the right to increase their bonded indebtedness and proposals dealing with the control of warehouses.

## THINKS U. S. WILL BE "WET" AGAIN

CHICAGO, April 28.—Edward Landsberg, Chicago brewer, announced today that he had investigated a fortune in obtaining new breweries, believing that the United States will not remain as "dry" as it is now.

Landsberg purchased the entire American stockholders of the Milwaukee and Chicago breweries Limited, an English holding company owning the stock of the United States Brewing Co., he said. The American holdings were said to approximate \$917,000.

"It is my opinion," he said, "that public sentiment eventually will force a more reasonable tolerance of mild alcoholic beverages, and that the present radical prohibition law will be greatly modified."

## CHARGE WORKMEN WITH RUINING BUSINESS

BLOOMINGTON, Ill., April 28.—Something of a new angle in a labor fight was brought to light today in the filing in the circuit court by Charles E. Hall, a building contractor of a damage suit for \$50,000, naming as defendants fifty-eight union workmen in various building crafts.

The defendants are all members of the building trades council, a joint organization of the various building crafts unions, against which a recently organized association of contractors has been in a fight for the past ten days. Hall claims that the defendants by conspiracy to interrupt various building contracts which he had undertaken, had resulted in practically ruining his business.

Hall has always stood for the "open shop" in the employment of men on his various contracts, while the building trades council stands for the closed shop.

## MANUFACTURERS AND BROKERS BLAMED FOR HIGH PRICE OF PRINT

Testimony Given Before Senate  
Committee Investigating  
Newspaper Situation

WASHINGTON, April 28.—Aburdly high prices for newspaper bought on the spot market are due to a "corner," resulting naturally from the present shortage, George McNaney, executive manager of the New York Times, declared today before the senate committee investigating the paper situation. The market price is twice or three times as much as that for paper bought under contracts, he said. Brokers and small manufacturers were blamed by Mr. McNaney for the high prices.

Frank P. Glass, of Birmingham, Ala., until recently president of the American Publishers' association, described spot market prices as "excessive and without distinguishing big and little manufacturers," added that the paper makers were making "big profits."

Publishers from Boston, Philadelphia, Providence, Pittsburgh and Baltimore are scheduled to appear as witnesses and the committee indicated today that the investigation would be directed at profiteering, manufacturing costs, selling prices, paper consumption and advertising.

Among today's witnesses, Charles Lane, of the New York Evening Post, and Mr. McNaney suggested the best remedy for the spot market condition was for publishers to stop competitive bidding.

Arthur Dunn, representing the American Press association which serves a number of small dailies, however, declared the smaller publishers favored government control of distribution, but did not know whether legislation to that end would be constitutional.

The complaint of the small publishers, voiced by Mr. Dunn, was that they were compelled to pay the high prices, while the big publishers, able to buy in larger quantities, bought cheaper under contracts.

## STRAUSE SPENDS DAY ON STAND

BLOOMINGTON, Ill., April 28.—The time in the trial of Edgar A. Strause, of Peoria, for the murder of Berne Meade, was taken up today largely with the cross-examination of Strause, the defendant, in regard to his shooting of Meade in the bank at Peoria in December, 1917. Under the fierce grilling of the state's attorney, Strause stuck to his original story of the shooting, saying that the thought Meade was about to shoot him and that he (Strause) fired in self-defense.

Strause said in answer to questions that he did not fire at any particular part of Meade's head; that he simply pointed the gun in the general direction of Meade and pulled the trigger twice in rapid succession. He had never had a quarrel with Meade prior to the day of the shooting, and their quarrel at that time started when Strause told Meade that he had investigated some irregular things that Meade had made with the bank's money.

A hypothetical question containing 1,141 words, all in one sentence, was propounded to six different physicians, its object being to get their answer as to whether a man wounded as Meade was, could have walked a distance of forty feet after he was shot, as the defendant claimed Meade did. On this issue hangs the contention of the state that Meade was shot in one of the bank cages and not at his own desk as the defendant contends.

## CROPS AFFECTED BY BAD WEATHER

Des Moines, Ia., April 28.—Weather conditions have affected materially farm work in Iowa the past week, the weekly weather crop bulletin of the government, issued today, says. Oats vary from green fields to fields yet to be seeded. Spring wheat is starting slowly, winter wheat, although progressing slowly, is in fair condition, the bulletin says.

The cold, cloudy weather has retarded fruit trees. Considerable loss of spring pigs, lambs and chickens is reported because of the lack of sunshine and warmth. The season is reported to be 20 days late throughout the state.

## BORAH HEADS IDAHO DELEGATION

Coeur d'Alene, Idaho, April 28.—United States Senator William E. Borah, favoring United States Senator Hiram Johnson, the presidential nomination will head the four delegates at large from Idaho to the national convention which was voted at the Republican state convention here today. The other three are State Chairman John Thomas of Gooding (non-committal); John P. Gray, Coeur d'Alene (Wood); and Stanley A. Easton, Kellogg (Wood).

## WAR HAS CAUSED MANY CHANGES IN GREAT BRITAIN

Working Class Now in  
Political Control  
Says Geddes

## URGES U. S. TO HELP EUROPE

ATLANTIC CITY, N.J., April 28.—Changes wrought by the war in England which "almost deserve the title of revolution," Sir Auckland Geddes, British ambassador said tonight in an address before the annual convention of the United States chamber of commerce. Vast new classes have been enfranchised, he said, and the working classes, strongly anti-militaristic, now hold ultimate political power.

"They seek to the limit of the nation's power," the speaker declared, "to secure tranquility in Asia Minor, in Asia and Africa. Silently and without fuss they have reduced the army to a strength many think barely sufficient to police the empire. They are determined to deal with problems of health housing and education. They see clearly that to secure their purpose they have to end the rancours and animosities which have torn Europe and brought her to the brink of disaster."

Reports of dissension between representatives of Britain and France and Italy at San Remo are fantastic, the ambassador assured the chamber.

"The great question you have to decide," he continued, "is this: are you going to stand by and wait for Europe's troubles to come after you, as come they will, or are you going out to help Europe. These are difficult times for all of us. We need sanity, courage, good will, the rooting out of suspicion, the dying away of anger."

"I know you as a nation well enough to prophesy that when the building of a saner world is done you or your sons will be able to look back and say: 'We are glad that we took the larger view; this is our handiwork as well as theirs.'"

**Meredith Addresses Convention**  
Farming was pictured as confronted with more serious difficulties than any other American industry by Secretary Meredith of the department of agriculture in an address tonight at the annual meeting of the chamber of commerce of the United States.

"American farmers," the secretary said, "are not only in competition with each other as producers but they are in competition with producers of other countries. Not only that, but agriculture as an industry is indirect competition with other industries for capital and especially for labor. Under present conditions farmers are losing in competition for labor."

"Farmers hesitate to pay high prices for labor because, unlike other industries, there is no opportunity for a quick turnover or to pass the increased cost along to consumers."

"Farmers are now faced with the problem of deciding whether to pay high prices for all the things they have to buy, farm labor, equipment, seed, fertilizers, clothing and supplies—and the investment of a large part of the cost of production in the early spring months, with the prospect that after harvest when they come to market their crops, they will be compelled to accept lower prices for everything they have to sell; or whether they shall cut down the initial expense of production by investing less capital in equipment, supplies and hired labor by reducing acreage and numbers of livestock. The latter course means smaller production. The food situation during the next twelve months will depend upon what the farmers give to this difficult question."

THE FRIENDS OF A COLLEGE

They are waging a campaign in Alton just now to raise \$100,000 for Shurtleff college. Thus far 300 people have pledged nearly \$70,000 toward this fund. In Jacksonville more than 400 people recently gave about \$55,000 toward a similar fund for Illinois college. The local plan of spreading the gifts among a larger number of people has its benefits, for a subscriber to such a fund immediately becomes an interested friend.

NOT LOSING MONEY

The steel corporation has during recent months raised the price of its products to a point nearly as high as that charged by its competitors. Nevertheless the last quarterly corporation report shows an increase in net

earnings of something like \$6,000,000, all of which should go to show that the competing corporations are not justified in the prices that they are charging.

SEA FISH INCLUDED IN HIGH PRICE PROGRAM

It was only a few months ago that several metropolitan papers were conducting special campaigns to popularize the eating of fish, maintaining that the value of fish as a food was little understood and that its use would help largely in keeping down living costs. But now unfortunately, the price of fish is soaring—that is, sea fish—and while their food value is not disputed, the consumer will find that the lower prices advertised do not materialize.

LIVING UP THE INCOME

A New York woman who has \$25,000 annually from her husband's estate, has recently petitioned the court to allow her \$5,000 a year for the maintenance of each of her children. Instead of the \$3,000 which has been paid. She alleges that with present commodity costs that \$3,000 is not sufficient for the maintenance of each child.

It is the same old question of living up one's income and probably this New Yorker would find it entirely possible to support each of her children in a very nice way for \$1,000 a year instead of \$5,000—if the court so ordered, and the children would be better off.

THE CITY IS HARD UP

Decatur Review:—Sometimes many of us get filled with the notion that the city of Decatur, considered in its corporate capacity, is rolling in riches. And so we are more than glib in seconding a proposal that another \$10,000 a year for some flourish be saddled on the city.

There is opportunity to get a more correct impression of the real situation, which is that as a rule the city is hard up. Just now, for instance, we are officially informed that nearly all the city funds are busted. Money to meet the last of this fiscal year's payrolls will have to come out of funds that are available following the first of May. In fact there is a good deal of this year's outlay that must come out of next year's proceeds.

And this situation isn't something new for the city. It is a condition we have had to meet several times, in fact it comes along almost as a regular thing. There is a desire on the part of council members to cure this chronic situation, to get the city to living for a year within that year's revenues.

Down in a southern state indictments have been brought against two restaurant men for selling club sandwiches at 50c. They are charged with profiteering and yet in the same state nothing has been done with the men who are causing sugar to be sold at 30c a pound or more.

And talking about sugar, it is a sad thing to recall that the U. S. government so wisely a few months ago refused to purchase a few million tons of raw Cuban sugar at 7 or 8¢ a pound. That would have insured a refined price to the consumer of 12 or 13¢. After the U. S. turned down the proposal the Cuban product was sold to England and shipped there. Now a part of it is being transported back to the U. S. and incidentally the Britishers have a nice profit on the transaction, along with all other interested parties.

THE ARMY OF OCCUPATION

The debate in the house on the army appropriation bill has brought out some startling facts regarding the American army of occupation in Germany. The United States received no sort of indemnity from the Germans' yet

we are obliged to keep about 17,500 men on German soil, and have agreed to maintain them there for 10 years. England, on the other hand, which receives vast territory from Germany, as well as miscellaneous advantages of all kinds, has only 16,000 soldiers in Germany, and is under obligation to keep them there only 5 years.

The cost of maintenance of our troops is about \$1,220,000 per day, which, under the terms of the armistice, Germany is obliged to pay. As a matter of fact, however, there has been paid only a little more than \$10,000,000, sufficient to maintain our army of occupation only eight or nine days.

As to whether England is having any better fortune in collecting for her expenses, Congressman Martin B. Madden of Illinois voiced the minds of his colleagues when he remarked, "I undertake to say the army of occupation sent there by England is being paid for—every dollar of it—by the German government."

Chairman Julius Kahn of California, in charge of the bill, stated that Germany now owes the United States, under the armistice terms, about \$750,000,000, which he believes she probably will never pay. Congressman Charles C. Kearns of Ohio emphasized the fact that the American taxpayers are being called upon to furnish the enormous amount necessary to keep our forces in Germany in view of the defaulting of the Germans on their armistice obligations. Mr. Kearns suggested that a good way to bring the troops home would be to put a provision in the army bill providing that none of the money should be used in support of our forces of occupation.

Rippling Rhymes By Walt Mason

Motor Grief.

All things the motorist must buy to have a corking time, are so absurdly, beastly high, the prices are a crime. Gas costs so much the buyer swears and madly paws the ground; I've bought a span of old gray mares to haul my car around. The gait they hit is sad and strange, their progress is a joke, they're spavined and they have the mange, but they don't leave me broke. It takes the income of the rich to buy a set of tires; and when one prices oil and such, he gurgles and expires. The punk mechanic with his tools calls for your final red; so go and buy a span of mules and hitch them to a sled. Five years ago I'd drive all day, and then at night return, and when I put the car away I still had coin to burn. Five years ago mechanics stout made my old boat work fine, they took the mealy carbon out, and got the valves in line. Their charges never set me back so much that I would sweat; but now I've bought a brindled yak to haul my wagonette. Five years ago—but what's the use? The dead years are on ice; now any seven cent excuse will do to hoist the price.

NOTICE TO OWNERS OF DOGS

The law now provides that the owners of dogs shall pay to the county assessor at the time of the annual assessment \$1 for each male dog and \$3 for each female dog owned. Please be prepared to comply with the law's requirement when the assessor calls.

EDW. MALLORY'S WILL FILED FOR PROBATE

The will of the late Edward Mallory was filed yesterday for probate in the office of the county clerk, G. L. Riggs. The document was drawn April 2, 1918, with Clara Davis, Oscar Williams and H. P. Samuel as the witnesses. The will provides for the payment of debts and a bequest of \$100 to Blanche Mallory, daughter of the testator. All of the rest of the estate, both real and personal, is bequeathed to Mrs. Mazie Mallory, wife of the testator, and she is named as executrix, to serve without bond.

HEBRON LECTURE COURSE

The last number of the Hebron lecture course will be April 30 at 7:30 o'clock. Students from the Illinois Woman's College will furnish a program of readings and music.

WILL SUPPLY WATER TO CITY PLACE

State Gants Use of Pipe There Without Expense to Water Department.

The state department of public works has given authority to the city of Jacksonville to use without charge a water main on City place which belongs to the state. Authority was conveyed in a letter received by Mayor Crabtree. By the use of this main the city will be able to provide water to several residents along City place, and the added consumption can be secured without additional cost.

The officials of the state department decline to sell the pipe to the city and expressed their entire willingness for the city to make use of the pipe without charge. The action indicates the interest of state officials in local affairs and a willingness to cooperate for the general good.

Style That Holds First Place

The instant recognition of the Velie's leadership in the authoritative style is one of the big chapters on the motor cars of 1920.

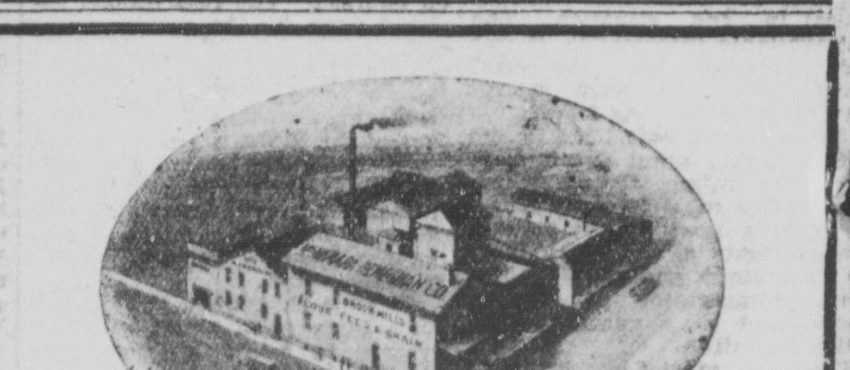

Velie holds and increases this prestige every day. The style grows on critics of the beautiful in car design.

You have the satisfaction that comes with possession of the last word in style when you drive a Velie. And you have the thrill of great power—the comfort of deep-plated genuine leather upholstery—plenty of room—the most advanced convenience. Six body styles, open and closed. To make sure of having your Velie for the long motoring season your order should not be delayed.

'Male and Female'

A Paramount-Artercraft Picture

A romance that searches deep into human hearts. A picture poignant, powerful, tremendous in its scope, superb in its artistry—destined to rank as a thrilling climax to "Old Wives for New," "Don't Change Your Husband," "For Better, For Worse," "Till I Come Back to You," and all the other great DeMille achievements.

You'll never forget "Male and Female!"

Yep—We can make Overalls, But, listen—

In the first place the Overall is intended as an outer garment to keep the clothing clean—in short, the overall is for the working man.

This idea which recently has sprung up, that the universal wearing of Overalls will help reduce the price of clothing, is all wrong and out of place. Will the wearing of overalls increase the present stocks of wool? No, it will do nothing but still further increase the workingman's expenses. Carried to its logical conclusion overalls within a short time would cost as much as a good wool suit. No, what we need is a greater production of raw materials. But space is too limited to go into the subject in detail. Come in and let's discuss it and let us give you some real inside facts.

Now, as to good wool clothes—don't it ever occur to you that a man pays no more now than "before the war?" That's easy. Don't every man wear his suits more than twice as many months? Isn't he wringing out every ounce of wearing-value? You bet he is.

Then, obviously the thing to do until wool production approaches demand, is to buy good clothes, tailor made; buy less often; obtain genuine suit-satisfaction at the same old annual expenditure. It can be done. Come in and let us show you. That, at least, entails no expense.

Housed on Your Rear Left Fender in Plain View of the Driver Behind, You Notify the Car Behind Just What You Intend to Do

Rear end collisions are practically unavoidable unless a definite means is used to signal traffic behind. Arm signals fail in critical moments and are impossible in closed cars. When at the wheel you are always wondering what the car ahead will do. The driver behind is wondering about YOU. Leave no doubt in his mind. Let him know definitely, positively, without chance of misunderstanding.

The Kobzy Signal Operates on the Semaphore Principle—Visible from Front and Rear—Day and Night.

—Endorsed by Leading Motor Clubs

There is no mistaking a Kobzy Signal. At the touch of your finger on the control lever on your steering post a "Stop," "Right," or "Left" signal snaps up on your rear left fender.

**YOU SHOULD WASH FOR BEAUTY AS WELL AS CLEANLINESS**

Washing the face is one thing. Caring for the complexion is another—so many women think. Not necessarily. The two operations may be combined. You can wash to cleanse as well as for cleanliness, by using Remmo Sterilized Toilet Soap.

This splendid new Toilet Soap is a beautifier as well as a cleanser. It cleanses the skin as it should be cleansed. The rich, velvety lather removes all accumulations from the pores of the skin, then washes out leaving the pores open and unhampered in performance of healthful functioning.

It is composed of properties that effect a decidedly beneficial influence over correction of skin defects and ailments.

It builds up skin health and complexion beauty of a permanent nature. The skin soon takes on a pleasing glow of natural beauty.

There is nothing mysterious or magical about it. Remmo Sterilized Toilet Soap is simply the one Toilet Soap so scientifically made that it answers the purpose of both a cleanser and a beautifier. Made of finest ingredients. Then sterilized at 198 degrees Fahrenheit—a method of manufacture, and the only method, that can and does safeguard the purity of Toilet Soap.

Remmo Sterilized Toilet Soap costs no more than Toilet Soap that merely cleanses and often at the cost of skin beauty.

## BLUFFS YOUNG PEOPLE MARRIED WEDNESDAY

Miss Bernice Wolford Becomes Bride of Addis Fuson—Groom is Railroad Man—They Will Reside in Bluffs.

Bluffs, April 28.—Addis Fuson and Miss Bernice Wolford were united in marriage tonight at 7 o'clock, at the home of the bride by Rev. E. J. Rees.

Mr. Fuson is a brakeman on the Wabash railway. He is the son of Mr. and Mrs. M. L. Fuson of this city.

Mrs. Fuson is the daughter of L. O. Wolford of this city. They were attended by Russell Wolford, brother of the bride, and Miss Helen Fuson, sister of the groom. Miss Marie Fuson played the wedding march.

The wedding was a quiet home affair, only a few of the relatives and friends of the contracting parties being present. Among them were Mr. and Mrs. C. M. Green, Miss Gertrude Fuson of Bluffs and Mr. and Mrs. Ernest Neihauer and Mrs. Smith of Chapin.

Following the ceremony Mr. and Mrs. Fuson departed for a ten day visit in St. Louis.

## BLUFFS RESIDENT WEDS IN DECATUR

Earl M. Burrus and Miss Dorothy Christian of Decatur Married Sunday at First M. E. Church, Decatur.

Bluffs, April 27.—A very pretty wedding occurred at the First Methodist church in Decatur Sunday April 25, in the presence of immediate relatives and friends, when Miss Dorothy Christian of Decatur became the bride of Earl M. Burrus of Bluffs. The beautiful service in charge of the Rev. T. A. Havinghurst, pastor of the church, was the order of the ceremony.

The bride was handsomely gowned in a neat traveling suit of blue tricotette and presented a very pleasing appearance. She was born and reared in Decatur where she has a host of admiring friends. She was educated in the public schools of Decatur and is accomplished in music. The groom is the son of Postmaster P. C. Burrus and wife and a graduate of the Bluffs high school class of 1909. Shortly after his graduation he became the junior partner of his father who was then engaged in the mercantile business in Bluffs, where he won the respect and esteem of all with whom he came in contact. Later he closed out his interest in the business and became a traveling salesman with headquarters in Decatur. He likes his work, putting the same energy and force into it until today he is one of the most popular salesmen on the road. Immediately after the ceremony the bride and groom left for a short honeymoon trip to Peoria. After May 1st they will be at home to their friends at 1636 North Water street which he has neatly furnished for the reception of his bride. The many friends of Earl Burrus hasten to send their heartfelt congratulations and wish them much happiness in their new home.

Postmaster P. C. Burrus returned Sunday evening from Decatur where he went to be present at the wedding of his son, Earl M. Burrus.

## Matrimonial

Mueller-Russwinkle.

C. O. Mueller of Bluffs and Miss Amelia Russwinkle of Meredosia were married at the court house Tuesday afternoon. The bride is the daughter of Mrs. Elizabeth Russwinkle of Meredosia and has lived in Meredosia most of her life. She is a very popular young lady and both she and the groom are well known in the community in which they live. They will reside on a farm near Bluffs.

Omen-Bushnell.

Harry Omen and Miss Iona Bushnell of Meredosia were married Wednesday afternoon at the Methodist parsonage at Meredosia. Reverend Fred Reid performed the ceremony. The couple were attended by Edwin Omen, a brother of the groom and Miss Alma Duvendack. The bride is the daughter of Mr. and Mrs. Chance Bushnell living southeast of Meredosia and is a young woman of worth and refinement. The groom is the son of Mr. and Mrs. J. D. Omen living east of Meredosia and is a farmer by occupation. Both young people are widely known in the community in which they live and have the best wishes of many friends. They will reside on a farm with the bride's parents.

## CHICAGO BANKS STOP REALTY LOANS

Construction Work Likely to Come to Standstill for Lack of Funds.

(Chicago News.)

With money "tight" and real estate values swollen far beyond their normal worth, Chicago banks have shut off real estate and building loans, it became known today. The immediate result will be to knock many building projects not yet financed into a cocked hat, and, in the opinion of some observers, so to reduce all building that the building trades workers will be wondering where they can earn a part of the present high wages.

"We started to shut down on our loans six weeks ago," said Edgar N. Greenbaum, head of the building loan department of Greenbaum & Son, bankers, who handle many large real estate loans. "We're not now taking on anything more. We must first digest what we already have and besides conditions are uncertain. Whether real estate values will approximate their present high levels in the future I can't say. At any rate the banks must go slow. Another factor is the tightness of money and the fact that there are a number of good investments at 7 per cent, whereas a building loan is worth only 5 or 5 1/2 per cent."

Other bankers report a similar situation in their institutions.

**May Shut Off Building.**

Builders say that, with bank loans shut off, building will be at a standstill in Chicago before many weeks elapse. Projects now under way are those already financed or undertakings in which no help from the banks is required. With buildings at a standstill many thousands of workmen would be thrown out of employment and forced either to seek work in other trades or to go hungry. And by that time, observers say, the factors controlling the building situation would be in varying degrees have affected all business.

Building has dropped off 30 per cent this month, figures in the office of the building commissioner show. Every day the decline is more noticeable. April should have been banner month. Instead, the building totals will be considerably less than in March.

## REPORTS SHOW RAPID SPREAD OF MEXICAN REVOLT

(Continued from Page One)

noon. He comes without authority from Carranza, to take charge of loyal troops in Juarez in event there is an uprising. Three hundred cavalrymen of the Villa Ahumada garrison declared to be loyal forces, marched into Juarez late today, after a forced march from their post, 80 miles south of the border.

At the same time arrangements were being made to rush to Juarez troops from Casas Grandes, where they were mobilized last week for the campaign against Sonora, which has been temporarily postponed.

Gen. Quiroga yesterday began hurrying troops from Santa Rosalia to Chihuahua City, where Carranza forces revolted Monday. His entire command is said to number 4,000 men.

Fighting is known to have taken place Tuesday between Quiroga's troops and the Chihuahua City rebels, but no details have been received.

Wire communication with Chihuahua City has not been re-established beyond Terrazas, about midway between Juarez and Chihuahua City.

## WESTMINSTER PULPIT DECLARED VACANT

At the prayer service of Westminster church last night Dr. W. E. Spoonstons was present and acting in accordance with instructions from the recent meeting of the Presbytery declared the pulpit of the church vacant. This action was taken in accordance with the record of the Presbytery wherein the pastoral relationship between Dr. Landis and Westminster church was ordered dissolved, the minister having presented his resignation some weeks since. Dr. Spoonstons took occasion to refer to his sense of loss in having Dr. Landis leave Jacksonville, as the two were seminary classmates and have continued intimate friends through the years.

## MRS. VIOLA COHICK TO LEAVE CITY JUNE 1

Resigns as Secretary of Local Social Service League — Day Nursery Committee to Report — Gift of Clothing Noted.

Mrs. Viola Cohick, who has served as superintendent of the Social Service league during the past year, is to leave Jacksonville at the close of next month. The league directors recently accepted Mrs. Cohick's resignation.

Mrs. Charles Fawcett, who is chairman of a special committee seeking to have a day nursery at the league rooms, will have a report at the next regular meeting. The relief committee, of which Mrs. J. W. Brown is chairman, reported the receipt of a quantity of fire damaged underwear from Thomas Duffner. This underwear was divided between the Social Service league and the Catholic Ladies' Aid society, of which Mrs. John Buckley is president.

## AGRICULTURAL ASSOCIATION NOTES

Farmers View of Taxation

Illinois farmers are working for a fair means of taxation which will assess all citizens who enjoy the privileges of the State according to their ability to pay. Ever since the delegates met at Springfield to build a new constitution, the Illinois Agricultural association has made a study of all proposals and got the opinion of the men on the farm.

Here is the farmers' proposal to the convention which has been discussed and recommended by Farm Bureaus all over the state:

A tax on all property, real estate and personal alike, to be assessed at a uniform low rate and the balance of the revenue to be raised by a State income tax. There is no reason why the man who has his money invested in stocks, bonds, mortgages and other intangible property should not pay the same tax as the man who has his money in a home or a farm. The income tax will bring out the two billion dollars worth of intangible property in the State that is not now paying taxes. The income tax will require a man to pay according to what he has actually made that year. The citizen who is making big wages and spending all of it will pay taxes the same as the man who is putting his money in a home.

Farmers are not in favor of classification of property. There is no justice in taxing this intangible personal property at a lower rate than real estate, because the income derived from it is higher than the income derived from money invested in farm land. There is no incentive for a man to become a land or home owner, which is the very heart of citizenship.

"The working out of a fair and just means of taxation is the big work of the convention," says Howard Leonard, president of the Illinois Agricultural association. As an organization of 70,000 citizens who are engaged in the basic industry of the State, it is our obligation to study and contribute to the proposals of this convention. We are making basic laws for years to come. The proposal of taxation we have made, we believe, is fair to all and it has met with approval of the delegates after thorough discussion.

"Our convention committee has told me," said Mr. Leonard, "that some groups of men who are asking for measures at the convention, have threatened to bolt the whole constitution if their measures did not go. I want to say you don't need to count farmers in that class."

**TRINITY BUILDING DELAYED**  
The friends and well wishers of the soldiers' monument are not the only people who are suffering disappointment owing to delays. The workmen on the new Trinity Episcopal church are at a standstill for the want of a particular lot of material which no one seems to have had orders to ship. At least such is the case at present and the day of dedication is indefinite.

## NOIS WILL MEET RADLEY POLYTECHNIC

Meet Arranged For Morning of May 15—Negotiations for Meet With Millikin in Future—Illinois Has Well Planned Team.

Each Harmon announced yesterday that a dual track and field meet had been arranged between Illinois college and Bradley Polytechnic to be run off here in the morning of May 15.

track meet will be held here on the afternoon of that day and this additional event will make the day a big one in the athletic history of Jacksonville.

Illinois will have a team composed of veterans this year. Most of the men who helped win the Little Nineteen state meeting at Peoria last year are again working on the team.

Among them are Tomlinson who won the 120 and 220 hurdles. Andrew, first in the shot put. Shoemaker, first in the shot and 440 dashes. Mackey, fourth in 220 dash. Fierke, first in javelin. Mutch, fourth in 440 dash. Cully, second in 220 hurdles and first in broad jump.

While the weather has been backward this spring, the men have been doing light work. However, Coach Harmon has not taken any chances and has not given the squad any strenuous work. If the weather gets normal the men will begin hard work outdoors this week.

Negotiations are also under way for a dual meet with Millikin in Decatur. Millikin wants Illinois on May 8. However, that

is the date of the Illinois Western track and field meet and Coach Harmon and the Illinois men will be in charge of affairs and cannot get away. Efforts are being made to switch a baseball game which Millikin has on that date to Friday, May 7. If this can be done the dual meet will be held on that day.

So far the Illinois squad had been showing up in fine form. All of the old men promise to be better than they were a year ago when they romped away with the state meet. There are some new men who look good too and Illinois promises to have a well balanced team and one it will be hard to beat.

## TWO BIG FREE SHOWS TODAY

C. N. Priest, "The Ford Man," has leased the Grand Theater for today and will present to the people of the city and community at 2:30 and 7:30:—

There also will be presented two reels of fine wholesome comedy, together with lots of good music.

Followed by an interesting talk from Mr. Hildebrand of Bloomington, who is an authority on "POWER FARMING," on "How to Keep the Boys on the Farm." Remember this is absolutely FREE.

## WATER HIGH

Thomas Bealey of Meredosia was in town yesterday and said that while the city itself is safe, adjacent country is suffering and much danger is yet in store. He says there is a levee up the bay that promises a large tract of land. Workmen are busy strengthening it every way possible but a strong west wind would send the water over the top. All along the river the high waters are doing much damage.

## WILL DRIVE TWO TRUCKS HOME

W. H. Cocking Plans for Trip From Cleveland — Company Warns About Garage Profiters.

W. H. Cocking is to leave Saturday for Cleveland, Ohio, to bring back two White trucks. He will take Lela Lamb with him and they expect to start Monday morning on the return journey. Mr. Cocking yesterday received from the White Co. some detailed instructions for the trip. The company mentioned the necessity of taking a stock of gas and oil sufficient for the trip thru Indiana. It was stated this was advisable because the garages in Indiana are charging 50c a quart for oil and a proportionate price for gasoline.

The company said there was no good reason for these excessive charges and that to avoid making payment to the profiteers that Mr. Cocking should lay in a supply of oil and gas before starting on the journey. The suggestions were also made for carrying rope, shovels, picks and some other tools indicating that there is a fine chance for running into some bad stretches of road between Cleveland and Jacksonville.

E. W. Sorrells was in Moline yesterday at the Veile Automobile plant where he purchased eight new cars which will be brought to Jacksonville as soon as the condition of the roads will permit.

## HIGH SCHOOL STUDENTS PLAN COMING EVENTS

Intellectual Contest for W. I. H. S. and Illinois Interscholastic Meet Next Monday Night — Baccalaureate Service May 23.

The intellectual contest for the Western Illinois high school meet and the Illinois interscholastic meet will be held in the auditorium of the David Prince school next Monday night, May 3. There will be contests in declamation, oratory, extemporaneous speaking and musical numbers and the program as a whole will be a most interesting one. The winners in the various contests will represent the local high school in the meets.

An interesting event in the near future will be the presentation of the comedy "The Merchant of Venice Up to Date," by the High School Dramatic club, assisted by other students. This play will be given some time during the week of May 10.

Sunday, May 23, has been chosen as the date for the annual baccalaureate service, which this year will be held at the Grace M. E. church, with Rev. M. L. Pontus as the speaker. The committee in charge of arrangements for commencement week has plans well formulated. The class day exercises will be held in the David Prince gymnasium on date to be announced in the near future. The plans for commencement week activities are in charge of the following committee: Marian Spry, chairman; Charles Cobb, Mary Florent, Sam Morton and Stephen Reid.

Enrolled at the high school are a number of students of Illinois college and Illinois Woman's college. These young people are taking the teaching course at the colleges and the requirement is that members of these classes spend a certain number of hours in attendance upon classes other than their own in order to gain a first hand knowledge of teaching methods in use.

The modern history and economics classes at the local school are now in charge of Glenn Strickler of Illinois college. This arrangement was made following the leave of absence granted to Miss Helen Calky.

## Social Events

### History Class

#### Last Meeting of Year

The History Class met yesterday afternoon at the home of Mrs. H. Bancroft on Westminster street. This was the last meeting of the year. At the business session the club decided to study Modern Drama next year.

Mrs. J. O. Vossler led the discussion on Current Events. Following the program the hostess served light refreshments.

### Surprise Party at McGuire Home

A large number of friends and neighbors were entertained at the home of Mr. and Mrs. Charles McGuire northeast of Manchester Monday evening. The affair was in honor of the birthday of their daughter, Miss Agnes, and the evening was spent in a very pleasant way with cards, music and dancing. At a late hour refreshments were served.

### Observed Wedding Anniversary

Friends of Mr. and Mrs. T. J. Riley gave a surprise party recently for them at their home on East North street. There were 35 in the company, which was planned in honor of the twentieth wedding anniversary of Mr. and Mrs. Riley. The friends took refreshments with them, together with a number of substantial gifts for their host and hostess.

The evening was spent with games, music and dancing and in every way it was a pleasant occasion.

### Birthdays Celebrated at Concord Home

A birthday dinner was given at the home of Mr. and Mrs. Samuel Brockhouse, Sunday, April 25. The occasion was the twenty-first birthday of their son, Archie Brockhouse, and also the eighty-sixth birthday of Mrs. Brockhouse's mother, Mrs. Charlotte Cox. The menu served at the noon hour included all the good things usual at such a time. Grace was said by Mrs. Cox, the words being those taught her by her father in the old home across the sea.

The crowning features of the dinner were two large cakes, one bearing eighty-six candles and the other twenty-one.

The guest list included Mr. and Mrs. Charles Baker and family, Mr. and Mrs. Lawrence Brockhouse and family, Mr. and Mrs. Omer Brockhouse, Mrs. Henry Northrup and daughter Charlotte, and grandson, Junior, Mr. and Mrs. John Steinberg, Albert and Archie Brockhouse, of Meredosia; Walter Brockhouse, Jacksonville; Mrs. Charlotte Cox, Jacksonville.

First dance of the season under the auspices of the park board at Nichols park Saturday evening, May 1st.

## MICHIGAN FRUIT CROP PROSPECTS FAIR

Walter W. Moore, who is here from Traverse City, Mich., for a brief stay, said yesterday that thus far there has been no indication of any serious frost damage to Michigan fruit. There has possibly been some damage to cherries in low, wet spots, but in most instances the Michigan orchards have been set out with a view to ample drainage and so there has been no resulting damage from rainy weather, followed by unusual cold.

Hereabout it is always a matter of regret when weather conditions result in damage to the fruit crop, but the loss is not comparable with that which occurs in Michigan when there is damage. In that state the fruit has a very large part in the total crop production of the state, while in this locality fruit production is merely a side issue.

## A COSTLY FOUNDATION.

A day or two since the Journal had an item regarding the wrecking of an old time house on South Main street. S. M. Metcalf says it was built in 1839 and being outside the city limits was razed for the boys who wanted a good, lively time. He says that foundation which was of stone was hauled by oxen from Alton cost the neat sum of fifteen hundred dollars.

## The Thresher That Sends All The Grain Into The Bag

MILLIONS of dollars are wasted in threshing each year in the form of grain which is fed into the separator but never reaches the bag—grain that works through to the stacker and is blown out with the straw. This is a necessary evil with the old vibrator type of thresher—but not with the Aultman-Taylor New Century.

The Aultman-Taylor New Century Thresher, equipped with the Universal Rotary Rack device and Inclined Open Web, stop this loss. They thresh and save all the grain.

## Universal Rotary Rack

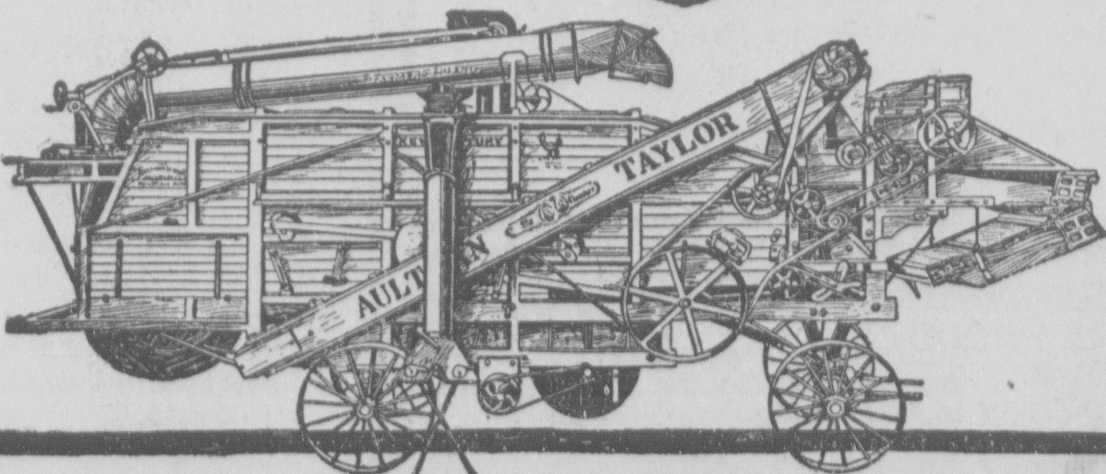

The Universal Rotary Rack positively gets all the grain out of the straw. Its rotary action gives it double the agitation of the vibrating rack, hence double separating capacity. It moves the straw rearward in a continuous thin stream, insuring perfect separation and greater capacity. And at the same time, it saves power and stops vibration.

## Four Sizes—All Standard

Aultman-Taylor Threshers are made in four sizes, all absolutely standard in design and construction. The sole difference between the largest and smallest New Century Thresher is one of size only. Our two smaller threshers are the ideal size for individual use with the small tractor.

We will be glad to give you any further information along this line at any time. Come in and talk it over with us now.

## OATS PLANTING LATE THIS YEAR

Wet Weather Delays the Regular Farm Program and Interferes With Crop Rotation Plan.

Morgan county farmers were mighty glad to see the sun Wednesday and are hoping now that there may be a continuance of bright weather and so an opportunity given to catch up with the spring work. On many farms oats have not been planted, and in some instances the fields are still so wet that no planting can be done for several days and not then if there is any further rainfall. There are Morgan county farmers who make a point of planting oats in March, so that the planting of oats four weeks later indicates the general condition of spring work on the farms.

The danger of late oat planting is that a late harvest time often throws oats into a hot season which is not favorable for the maturing grain and the crop yield is often cut down by the extreme heat. It is getting so late and some fields are so wet that the owners have abandoned their plans to put in oats and will seed corn instead. The objection to this plan is that it will probably interfere with their regular crop rotation and the fields will thus be planted in corn which should be seeded to oats and some legume crop in order to keep up the proper state of fertility.

Storage Battery

Under your car's hood the imprisoned force of a mighty lion rests helpless—powerless—until that mouse-like battery, at your command, releases energy that whirls the motor into life.

Your storage battery's ability to keep itself hidden from attention depends greatly upon whether or not your generator is set at the correct charging rate.

A special advantage of Presto-O-Lite Service is the expert advice and assistance in keeping your generator accurately adjusted to your battery, whether you are a Presto-O-Lite battery user or not.

Other privileges are testing and distilled water as often as your battery needs it.

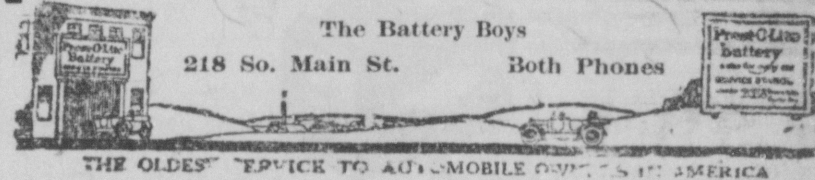

Drive up any time and welcome. When you need repairs or recharging our prices are always moderate.

## How much should I give to make this a better world?

A BUSINESS man filled out his income tax report.

It showed an income so large that his tax was 53%. And his total gifts to church and charity for the year were \$148.

Think of it—thousands spent for luxuries and pleasure for himself; and \$148 to leave the world a little better than he found it!

Most of us do better than that; but not so very much better.

Our average daily gift for all church causes is

- less than we spend for daily papers
- less than a local telephone call
- less than a third of the day's car fare
- less than 3 cents a day

No wonder that 80% of the ministers of America are paid less than \$20 a week. No wonder that the church hospitals turn away thousands of sick people a year. No wonder that China has only one doctor for every 400,000 people. No wonder that every church board and charity society is forever meeting deficits, forever passing the hat.

It isn't because we are selfish; it isn't because we don't want to help. It's just because no one has ever put up a great big program to us, and asked us to think of the work of the church in a systematic businesslike way.

The Interchurch World Movement represents the united program of thirty great denominations. They have surveyed their whole task; no business could have done it better.

They have budgeted their needs; no business could have a more scientific budget. They have united to prevent the possibility of waste and duplication. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

And they come to the men and women who love America—to you—this week, asking you to use them as the channel through which a certain definite part of your income can be applied to make this a better world.

Only you can determine what part of your income that should be. The chart printed here is intended merely as a suggestion; it represents a scale of giving of 6%—or less.

Six per cent of your earning power; 15/16ths of your life for your own family needs; and 1/16th for your fellow men—is that more than you ought to give?

It's a good time right now to answer that question. We're passing through the world just once; how much better is the world going to be because you passed through?

### SPEAKERS' CATCH SAVES INDIANS FROM DEFEAT

Cleveland Manager Makes Greatest Catch in Career of Jackson's Smash With Two Men on Bases in Seventh, Saving Game With White Sox—Other American League Battles.

Cleveland, O., April 28.—Manager Speaker's catch of Jackson's drive with two on in the seventh inning, the greatest catch ever seen on the Cleveland grounds and admitted by Speaker to be the greatest in his career, allowed Cleveland to make it two straight from Chicago today, 5 to 4. The defeat sent Chicago into third place.

Kerr was knocked out of the box in the first inning.

Darkness Stops Game.

Philadelphia, April 28.—Darkness stopped the game between Boston and Philadelphia here today in the fourteenth inning with the score 7 to 7. Kinney's wildness and errors by Dykes helped the visitors to a lead in the early innings, but Jones weakened and only sensational fielding by Foster prevented the locals from winning in the seventh and eighth.

### MEREDOSIA MEN HAD NARROW ESCAPE

W. A. Schmitt and Harry Beppe Banned by Explosion of Gasoline Blow Torch—Willard Van Hyning Entertains Friends—Other News Items.

Meredosia, April 27.—Saturday morning at the blacksmith shop and garage of Schmitt Bros. a gas blow torch exploded which caused much excitement for a short time. W. A. Schmitt, and Harry Beppe were working with the torch which was not working properly. The torch exploded igniting the clothing of the two men and burning them quite severely about the face and hands. Beppe receiving the worst injuries of the two. As soon as Mr. Schmitt realized what had taken place he immediately jumped into a vat of water which was close by extinguishing the flames on his clothing. He then turned his attention to Mr. Beppe, who was running off an outside door. Mr. Schmitt jumped from the vat and caught Mr. Beppe before he reached the door and put him into the water which prevented any more serious damage. While the two men are suffering with the burns already received they feel very thankful for the preservation of their lives and also for their eyesight which seems marvelous under the circumstances.

# Daily Market Report

## DECIDED WEAKNESS IN CORN MARKET

Chicago, April 28.—Decided weakness manifested itself at times today in the corn market, chiefly owing to evidence of strained financial conditions. The close was nervous at the same as yesterday's close, with July \$1.64 to \$1.65. In oats the outcome was unchanged to % down, and in provisions varying from 45c decline to 5c advance. Bearish factors were so numerous that sellers of corn overreached themselves. Declines in sterling exchange and in New York stock quotations had a special depressing effect on holders and were reinforced by warmer weather and by notice that the railroads out of New England had been embargoed. Besides banks were reported as curtailing loans in many lines of industry, with a large number of men out of work obtaining supplies to meet contracts for May delivery of corn and oats, however, tended to force rallies. Near the end of the session, in particular, shorts found offerings scanty and were eager bidders at the finish. Oats reflected the same circumstances which ruled corn. Provisions, the greater part of the day, were weak in sympathy with grain. Application for a receiver for a packing company at Sioux City was also a bearish influence.

## HEAVY SELLING ON STOCK EXCHANGE

New York, April 28.—The stock market was under almost constant pressure today of extensive selling for both accounts, but mainly the short interest forcing many active issues under lowest prices of the previous week.

Further suspension of operations at leading manufacturing centers was reported and the Iron Age referred to the "great blow" to the steel trade caused by congested railroad conditions throughout the middle west.

The general list registered lowest prices of the session in the final hour, when it became known that federal authorities had petitioned the supreme court to reopen the dissolution suit recently decided in favor of the United States Steel Corporation. Declines of 2 to 17 points were largely retrieved before the end, however, the rally following a drop in call loans from 10 to 8 per cent and a substantial recovery in foreign exchange, especially the London rate.

In several noteworthy cases actual gains were made, the market closing with a steadier tone on urgent covering of short contracts. Sales amounted to 1,325,000 shares. Rumors of a probable merger of several independent steel companies, including Bethlehem, Lackawanna and Midvale, were again current, but lacked confirmation in authoritative quarters. Liberty bonds and Victory notes closed at nominal gains and recessions, the general list showing no material changes. Total sales (par value) aggregated \$14,750,000.
